UMAR FAROUQ IBRAHIM

FULL-STACK SOFTWARE DEVELOPER

Zaria, Kaduna State, Nigeria | +234 808 080 5799 | umarfarouqibrahim360@gmail.com
Portfolio | GitHub: umar-farouq360 | LinkedIn

PROFESSIONAL SUMMARY

Computer Science graduate (B.Sc. Hons.) and full-stack developer who has taken two client applications to production as sole developer: a live digital news platform and a campus navigation system used by ABU students. Builds with TypeScript, Next.js, Node.js, PostgreSQL and Redis, covering API design, authentication, and Docker-based deployment.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, HTML, CSS
Frontend: React, Next.js, Tailwind CSS, shadcn/ui, Framer Motion
Backend: Node.js, Express.js, GraphQL, JWT authentication with refresh tokens
Data: PostgreSQL, Drizzle ORM, Redis (caching, rate limiting)
Validation & forms: Zod, React Hook Form
Tools & deployment: Docker, Git, GitHub, Railway

PROFESSIONAL EXPERIENCE

Software Development Intern *October 2026 – Present*
Software Development Unit, Ahmadu Bello University, Zaria

- Work as a full-stack developer on client software projects, covering frontend, backend and deployment.
- Projects include GIRS, a campus navigation system built for an ABU client (see Selected Projects).

SIWES Trainee *May 2025 – November 2025*
Software Development Unit, Ahmadu Bello University, Zaria

- Completed a structured software development programme under mentorship, covering HTML, CSS, JavaScript, React, Next.js, Tailwind CSS, Express.js, PostgreSQL, Zod and React Hook Form.
- Worked in a team of four on a SaaS online examination platform for schools, building the public-facing frontend with React, Next.js, Tailwind CSS, Zod and React Hook Form.

SELECTED PROJECTS

Pen Times Magazine – Sole Developer (Client Project) *May 2026 – Present*
Live: pentimes.ng

- Designed, built and deployed a digital news platform end to end (frontend and backend) for a client; it is live in production on Railway and I continue to maintain it.
- Implemented JWT authentication with refresh tokens and role-based access for readers, authors and administrators, each with a dedicated dashboard.
- Built reader features (bookmarked articles, profiles), author publishing and article management, category management, and an admin analytics dashboard tracking users, articles and growth.
- Built a separate Next.js frontend and Express/GraphQL API, with PostgreSQL (Docker) and Drizzle ORM; used Redis for caching and rate limiting.

Technologies: Next.js, TypeScript, Tailwind CSS, shadcn/ui, Express.js, GraphQL, PostgreSQL (Docker), Redis, Drizzle ORM, JWT, Zod, React Hook Form

GIRS (Geographic Information Retriever System) – Sole Developer (Client Project) *May 2026 – July 2026*
Live: abu-girs.up.railway.app

- Built and deployed a campus navigation application for an ABU client; it is in active use by students, with 40 campus locations listed.
- Developed a public interface for discovering locations on an interactive Leaflet map, with directions that open the selected destination in Google Maps.
- Built an authenticated admin dashboard for creating and managing locations using their details and latitude/longitude coordinates.

Technologies: TypeScript, Next.js, Tailwind CSS, shadcn/ui, Leaflet, PostgreSQL (Docker), Drizzle ORM

Personal Portfolio – Sole Developer *October 2026 – November 2026*
Live: umar-farouq.up.railway.app

- Designed and built a full-stack portfolio with a React (Vite) frontend and an Express.js backend providing a contact form and an admin panel secured by JWT login.
- Used PostgreSQL (Docker) with Drizzle ORM for storage and Redis for caching.

Technologies: TypeScript, React, Vite, Tailwind CSS, shadcn/ui, Framer Motion, Express.js, PostgreSQL, Drizzle ORM, Redis, Docker

EDUCATION

Ahmadu Bello University, Zaria *Graduated October 2026*
B.Sc. (Hons.) Computer Science – Second Class Upper, CGPA 4.06/5.00
NYSC: Not yet mobilised

LEADERSHIP EXPERIENCE

President, NACOS – Computer Science Department, ABU Zaria *September 2025 – October 2026*
Nigeria Association of Computing Students

- Established the Department Council of 20 members, bringing class representatives, their assistants and other departmental members into executive decision-making.
- Led departmental programmes including the departmental tournament, SIWES orientation, Corporate Day with technology industry speakers, and departmental week activities.
- Founded the Computer Science Tech Community (CSTC), which ran introductory web development and cybersecurity bootcamps with mentorship for about 20 participants.

AWARDS & RECOGNITION

- Certificate of Service (Student Affairs Division, ABU) and Award of Excellence (Computer Science Department Graduation Committee), both October 2026, in recognition of leadership as NACOS President.
